

I am a xm radio subscriber and very devoted to it and its amenities. This petition 04-160 is absurd, as a paying customer, and as a traveler I rely on my xm radio for entertainment as well as to the minute traffic and weather issues and situations, when regular broadcasting is more worried about gossip and music I have a choice now as a paying customer to get an dlisten to what I need at that moment. Please do reject this petition as it infringes on my rights and as a paying customer I love the variety and ability to choose what I want to hear, god bless america!                      thankyou for your time, steve clapsaddle
